Letter of Recommendation

It gives me immense pleasure to write this reference letter in favour of Mr. Karan, who is aspiring to pursue the Master in Science program at your university. Mr. Karan had completed his final year project under my guidance. I have observed Mr. Karan in both impatient and outpatient setting, taught him in class and overseen his performance during his final project. Based on my observation, Mr. Karan is sincere and dedicated. Mr. Karan worked on the implementation of enhancing security using DROP in cloud with addition of stenography in the same. He is quick to learn new concepts and requires minimum supervision. He is responsible and dedicated which are essential skills required to complete a project like this. He is extremely conscientious about his work and about attending classes and lab. He also volunteered in a workshop 'Information security and digital forensic' organised by the department.

Mr. Karan has good communication skills. He is an outstanding team player and creative thinker with an eye for details and devotion to logic. Mr. Karan is extremely personable young man who seems equally comfortable with his peers and faculty. His commitment towards the project's features and its implementation and adhering all the set deadline make his exceptional as well. Mr. Karan also talked about his goal to pursue Masters coursework. I believe that Mr. Karan's abilities and his clear dedication towards his goal make him strong candidate for Masters in science coursework in data analytics. I wholeheartedly recommend Karan for this particular course in your university. He will add a great deal to any incoming class. I can also envision Karan as a highly competent and dedicated. If there are any questions I can answer, please feel free to contact me.

Dr. Amarjit Kaur Malhotra
Associate Professor
Department of Information Technology
